Entering the residence to your right - you'll find the master bedroom with its very own luxury ensuite, spacious walk-in robe and is cleverly tucked away from the rest of the home.

Continue through to the heart of the home where most of your time will be spent cosying up in the combined open plan living/dining area all served by the large gas-cooktop kitchen (with built-in pantry) that offers the perfect indoor to outdoor transition and allows plenty of natural sun through the home all day long.

In a separate wing of the home, off the living/dining area -
